Kathmandu, Nepal

Professional Summary

Motivated and enthusiastic BSc CSIT graduate specializing in full-stack web development with hands-on experience in building scalable web applications using React, Node.js, Express, and REST APIs. Proficient in JavaScript, TypeScript, and modern frontend and backend technologies, with a strong understanding of Object-Oriented Programming (OOP), MVC architecture, and problem-solving principles

Education

Bachelor of Science in Computer Science & Information Technology (BSc. CSIT)
Amrit Science Campus, Lainchour, Kathmandu | 2022 – Present | Eighth Semester

Higher Secondary Education (+2 Science)
Shree Bal Uddhar Secondary School, Kapan, Kathmandu | 2019 – 2021

Shree Tribhuwan Secondary School, Melung, Dolakha (SEE)

Technical Skills

Programming Languages: C, C++, C#,: PHP ,Java, Python, JavaScript
Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Next.js
Backend & Frameworks: Node.js, Express.js, ASP.NET Core MVC, REST APIs
Databases: MySQL, MongoDB, PostgreSQL
Core Concepts: OOP , MVC architecture , RESTful API Design , Authentication & Authorization
Tools: Git, GitHub, Postman

Professional Experience

Frontend Developer Internship
Inflancer Technology Pvt. Ltd. —Gwarko, Lalitpur, Nepal September 2025 – April 2026

- Developed responsive and modern user interfaces using React.js and Next.js.
- Built reusable and modular UI components to improve maintainability and scalability.
- Integrated frontend applications with backend REST APIs.
- Improved website performance using Next.js optimization features.
- Debugged and resolved UI issues to enhance cross-browser compatibility.
- Collaborated with development teams using Git-based workflows in an agile environment

Projects

Quizify – Dynamic Quiz Platform
ASP.NET Core MVC | SQL Server

- Built an interactive quiz-taking interface for students with real-time score updates. Focused on accessibility and smooth UI interactions.
- Developed admin tools to manage quizzes, questions, and performance analytics. Used MVC pattern for organized code structure and easier feature extension.

Brain Tumor Detection System
React| Python | Tensor Flow | FastAPI

- Developed a responsive and user-friendly React interface where users can upload MRI images and instantly receive AI-generated brain tumor predictions. Ensured smooth interaction using efficient API calling, clear loading states, and error handling.
- Integrated a secure FastAPI backend with a trained CNN model for high-accuracy tumor classification, enabling medical insight accessibility for remote patients. Added result visualization and downloadable PDF reports to support easy review and consultation.

docMeet – Doctor Appointment System
MERN Stack | Tailwind CSS

- Built a secure, responsive interface enabling patients, doctors, and admins to manage appointments smoothly. Implemented role-based authentication and dashboards to ensure proper access control.
- Integrated REST APIs to handle booking, schedule management, and patient details efficiently. Improved the user workflow for faster navigation and better usability.

HisabKitab – Invoice Management App
Next.js | MongoDB | JWT Authentication

- Developed invoice CRUD features with secure user login and session management using JWT. Focused on modular and reusable UI components to maintain clean architecture.
- Implemented dynamic invoice generation and data storage for business use cases. Enhanced UI performance and responsiveness with Next.js optimization techniques

StoreFront – Online Storefront
Next.js | Tailwind CSS | FakeStore API

- Designed product listing, pagination, and cart system to improve shopping experience. Ensured full responsiveness for different screen sizes using Tailwind CSS.
- Integrated FakeStore API for real-time product fetching and handled loading/error states gracefully. Improved SEO and performance with Next.js best practices.

Soft Skills

Problem Solving | Team Work | Leadership | Effective Communication

Certifications & Courses

JavaScript (GreatStack) 2024

ReactJS Founsation Course(ScolarHat) 2025
